

DORNE ESD

0RT20124

DESCRIPTION

The Red Stratos Dorne is a low-cut safety shoe designed for the daily worker who seeks protection and comfort in all conditions. With an ultra-lightweight NanoFiber toecap, ultra-lightweight anti-puncture midsole, Super Critical Technology outsole together with high-grip, heat-resistant HRO rubber, they offer total safety. The PUTEK® star high tenacity, water-repellent and breathable upper ensures comfort and durability. Integrated ESD protection and breathable lining make Dorne ideal for industry, logistics and technical sectors.

UPPER

Putek Star high tenacity, water-repellent, breathable

TOECAP

NanoFiber Toe Cap, ultralight, metal free.

MIDSOLE

U-Power Original.

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

LINING

Wingtex® with breathable aria tunnel

ANTIPERFORATION

Ultra-lightweight anti-puncture footbed.

SOLE/TREAD

Black HRO rubber

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

NANOFIBER TOE

Made from nanofibre to ensure maximum protection whilst keeping the weight to a minimum. Weighing around 40 grams, it is the lightest option in the range, designed to optimise balance and reduce fatigue during prolonged use.

PROTECTION CLASS

S3S CI HI HRO FO SR

EU NORM

EN ISO 20345:2022+A1:2024

SIZES

35-48

PU TEK STAR

A protective fabric featuring a geometric star pattern. It offers durability, flexibility and a PVC-free construction. Certified to ISO 20344:11, it provides air circulation and breathability four times greater than the minimum requirements for S3 safety footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

SUPER CRITICAL TECHNOLOGY

Next-generation foam that combines extreme lightness with consistent energy return. It absorbs impact, reduces fatigue, and delivers a natural, continuous boost throughout the day.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
